

# NIOS DDI TROUBLESHOOTING (IB-NDT)

---

## Course Description

Troubleshoot the Infoblox Grid and HA (high availability) pairs. Study common root cause analysis and resolution strategies and techniques for network connectivity and DNS and DHCP issues. Use a case-study approach to apply your learnings to real-life failure scenarios and recovery methods.

## Course Duration

2 days

## Prerequisites

Attendees should have completed the NIOS DDI Administration course or have equivalent hands-on Infoblox experience

## Course Outline

- Troubleshooting Basics in NIOS
- DNS Troubleshooting Methodology
- DHCP Troubleshooting Methodology
- Describing DHCPv4 Failover
- Troubleshooting DHCPv4 Failover in NIOS

## Who Should Attend

This advanced course is for team members who will be conducting expert-level troubleshooting tasks in NIOS.
