Course Description

The Prisma Access SSE: Configuration and Deployment (replaces EDU-318) course provides a deep dive into deploying, configuring, and managing Prisma Access using Strata Cloud Manager "SCM". You'll gain the skills needed to secure remote networks and mobile users with a cloud-delivered Secure Access Service Edge (SASE) solution—empowering your organization with modern, scalable, and cloud-based network security.

Prerequisites

Participants should have a basic knowledge of cloud computing and the public cloud and experience with networking concepts, including routing, switching, and IP addressing.
In addition, participants should complete the following pre-requisites to be optimally prepared for the course:

- Prisma Access (Strata Cloud Manager) digital learning paths
- (Recommended) Firewall Essentials: Configuration and Management or equivalent experience.

Course Duration

4 days

Objectives

Successful completion of this four-day, instructor-led course will help enhance your understanding of how to better protect your applications, remote networks, and mobile users using a SASE implementation. In a lab environment, you will get hands-on experience configuring, managing, and troubleshooting Prisma Access via Strata Cloud Manager.

Course Outline

1. Prisma SASE
2. Prisma Access Architecture
3. Strata Cloud Manager
4. Licensing and Activation
5. Service Connections
6. Remote Networks
7. Mobile Users
8. Prisma Access Explicit Proxy
9. ZTNA Connector
10. Prisma Access Browser
11. Autonomous Digital Experience
12. Management (ADEM)

Who Should Attend

- This course is intended for Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers.
