CompTIA Project+

Course Description

CompTIA is a not-for-profit trade association with the purpose of advancing the interests of IT professionals and IT channel organizations; its industry-leading IT certifications are an important part of that mission. CompTIA's Project+ certification is a foundation-level certification designed for professionals with 6–12 months hands-on experience managing small- to medium-sized projects in an IT environment.

This exam will verify the successful candidate has the knowledge and skills required to manage the project life cycle, coordinate small-to-medium-sized projects, establish a communication plan, manage resources and stakeholders, maintain project documentation and artifacts, and support the completion of larger projects within an information technology (IT) environment.

Course Duration:

5 days
