

MB-700T00: Microsoft Dynamics 365: Finance and Operations Apps Solution Architect

Course Description

The Dynamics 365 Finance and Operations solution architect is a trusted advisor who consults with organizations and implementation team members to refine business needs into a well-defined and cost-effective solution. The architect is accountable for the integrity and successful delivery of the complete solution design.

The architect provides critical guidance and support from pre-sales throughout the remainder of the project lifecycle. They have great breadth of knowledge and experience designing solutions that meet business needs. The solution architect may have a technical, functional, or industry background. The solution architect must demonstrate knowledge of all Dynamics 365 apps and Power Platform. They must have deep understanding of Finance and Operations apps. In addition, they have extensive domain knowledge in one or more industry verticals.

This course is designed to prepare those who are aspired to be solution architects and those who are new to this role to learn more about the technical information that solution architects will be dealing with during implantation.

Course Duration

4 days

Prerequisites

You must complete the following learning paths before attending this instructor led training :

- [Architect solutions for Dynamics 365 and Power Platform - Learn | Microsoft Docs](#)
- [Use Success by Design for Unified Operations apps solutions - Learn | Microsoft Docs](#)

Course Outline

- Becoming a solution architect for Dynamics 365 and Microsoft Power Platform
- Discover customer needs as a Solution Architect for Dynamics 365 and Microsoft Power Platform
- Propose a solution as a Solution Architect for Microsoft Power Platform and Dynamics 365
- Work with requirements for Microsoft Power Platform and Dynamics 365
- Perform fit gap analysis
- Get started with Lifecycle Services for finance and operations apps
- Design and plan an implementation of finance and operations apps
- Translate Dynamics 365 apps and documentation with Dynamics 365 Translation Service
- Prepare data for migration to finance and operations apps
- Work with data management in finance and operations apps
- Perform user acceptance testing in finance and operations apps
- Get started with a finance and operations implementation project
- FastTrack Customer Success Program for finance and operations
- Implement application lifecycle management in finance and operations apps

- Explore extensions and the extension framework in finance and operations apps
- Consume business events in finance and operations apps
- Identify data integration patterns and scenarios in finance and operations apps
- Data integrations with finance and operations apps
- Work with analytics and reporting in finance and operations apps
- Introduction to Microsoft Power Platform
- How to build a canvas app
- Introduction to Dataverse
- How to build a dashboard
- How to build an automated solution
- Design and build mobile apps for finance and operations apps
- Updates and upgrades for finance and operations apps
- Work with performance and monitoring tools in finance and operations apps
- Plan and implement security in finance and operations apps
- Implement role-based security in finance and operations apps
- Prepare to go-live with finance and operations apps
- Feature management in finance and operations apps
- Get started with Success by Design for Dynamics 365
- Create a solution blueprint for Dynamics 365 solutions
- Plan a testing strategy for your Dynamics 365 solution
- Design data models for Dynamics 365 solutions
- Business intelligence and analytics design for Dynamics 365 solutions
- Gap solution design for Dynamics 365 solutions
- Create a data migration strategy for Dynamics 365 solutions
- Review the security model for your Dynamics 365 solutions
- Integration design for Dynamics 365 solutions
- Dual-write implementation for Dynamics 365 solutions
- Implement a performance strategy for Dynamics 365 solutions
- Cutover strategy for Dynamics 365 solutions
- Post go-live strategy for Dynamics 365 solutions
- Get started with configuration and personalization in Finance and Operations apps
- Configure your user interface in Finance and Operations apps
- Configure your data in Finance and Operations apps

Who Should Attend

The audience for this course should have previous experience with functional or technical focus in Dynamics 365: Finance and Operations Applications. Primarily for those who are aspired to be solution architect role.
