Using BlueXP Protection (NA-UNBXPP)

Course Description

Discover the features of NetApp® BlueXP™ protection services through classroom lectures and exercises. Explore how to deploy NetApp BlueXP backup and recovery in your environment and implement a policy-based, 3-2-1 data protection strategy by using BlueXP backup and recovery and NetApp BlueXP replication services. Finally, evaluate how to diagnose and troubleshoot common issues.

Course Duration

1 day

Prerequisites

- NetApp BlueXP Fundamentals
