Prisma Access Browser

COURSE DETAILS

Delivery Type: Instructor-Led
Duration: 1 Day

COURSE PREREQUISITES

Participants should have a basic knowledge of cloud computing and public cloud, as well as experience with networking concepts, including routing, switching, and IP addressing.
In addition, participants should complete the following prerequisites to be optimally prepared for the course:

- Prisma Access (Strata Cloud Manager) digital learning paths
- (Recommended) Firewall Essentials: Configuration and Management or equivalent experience.

COURSE CONTENT

The Prisma Access Browser course introduces you to the operational deployment of Prisma Access Browser and how it helps organizations meet the needs of the modern workforce by providing cloud-based network connectivity and security services.

This course will enable you to deploy, configure, maintain, and troubleshoot Prisma Access Browser using Strata Cloud Manager. The course is intended for professionals in cybersecurity and public-cloud security, as well as general network-security professionals who want to learn how to secure the last mile through a secure enterprise browser.

COURSE OBJECTIVES

Successful completion of this one-day, instructor-led course will help enhance your understanding of how to secure the internet and private applications better using a secure enterprise browser. In a lab environment, you will get hands-on experience configuring, managing, and troubleshooting Prisma Access Browser via Strata Cloud Manager.

COURSE OUTLINE

1. Prisma Access Browser Overview
2. Architecture
3. Policy
4. Monitoring, Logging, and Troubleshooting
5. Prisma Access Browser Extension
6. Prisma Access Browser Mobile

WHO SHOULD ATTEND

This course is intended for Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers.
